## PER-FEC FILM STENCILS

are Quality Throughout!

### 5 Reasons Why PER-FEC FILM STENCILS are your best buy!

1. Beautiful, sharp copies (nicer work—more legible).
2. Protects your typewriter (the film protects feed rollers and platens).
3. Letters will not fill (save cleaning your typewriter).
4. Letters will not chop out (nicer looking stencils... easier to read).
5. Fully protects stencil (saves stencil cost).

This special film covering on Mishel's Film Stencils is gaining in popularity because it gives greater economy and finer quality of work. It is the stencil that is in demand.

## NEW! FOLDING TABLET-ARM CHAIRS

Newest addition to the Mishek line is the folding tablet arm chair which is ideal for use in classrooms, lecture halls, sales and conference meeting rooms and wherever a sturdy arm chair for writing and note taking is required. The chair is Mishek's, strong and sturdy, of the inverted "Y" tubular steel folding type.

The tablet arm top is rigidly secured and mounted on a tubular steel support which automatically raises or lowers the arm when the chair is opened or closed. Both chair and tablet arm fold by lifting front edge of the seat or by placing one foot on rear cross brace and pulling upward on the backrest.

The entire unit is unusually sound and stable. Tablet arm is  $\frac{5}{8}$ " thick plywood and 7-ply hot-press urea resin bonded construction of either birch or maple, finished with the highest quality sealer and lacquer for protection and long-life durability. Folding mechanism is safety designed to eliminate any pinching hazard, and chair construction is such that the seat will not tip when a person stands or sits upon the front edge or the very rear of the seat.

COLORS: Steel frames  
in Beige, Azure Gray,  
Mist Green, Blue  
synthetic baked-on  
enamel finish.

"Built-up" vertical frame  
strengtheners and seat  
spacers on front legs for  
a distance of 6" provides  
stronger, more rigid bear-  
ing points to secure the  
seat pivot point. They insure  
overall chair strength, safe-  
guard from frame spread-  
ing and collapsing—greatly  
increase over-all chair ri-  
gidity and sturdiness.

Leg braces of heavy gauge  
cold-rolled, electrically welded  
steel tubing increase frame  
strength and rigidity. A 5/16"  
solid carbon steel seat pivot rod  
gives additional frame strength  
— also acts as seat support.

Performs best if used once a week or more. Incl. 4 Stencils, 2 ½-lb. cans Ink, Brush, Ink Gauge, Stylus, Sig. Plate, Cover, Instructions. **\$112.50\***

5-FIGURE COUNTER FOR MODELS C, D, E. (Specify Model, Serial No.) **\$10.50**

Dear Sir:

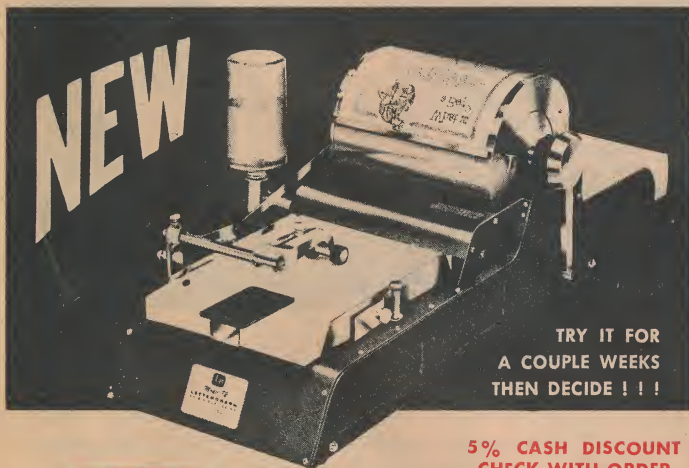

"I purchased my Heyer's Lettergraph in January, 1956 in Bay City, Michigan and the reason for doing so was that when I started my ministry a close friend of mine had an older model of the Lettergraph and gave it to me. I used it for about 7 years and finally decided to purchase a new machine. I looked over . . . and several other makes and then purchased the Lettergraph.

"Reason? Simply this. Cost was a big item to me and also the simplicity and low cost of operating it over a period of years. I use it every week to run church worship folders for a three point charge. I have used it to make a booklet of 35 pages size 4¼ x 5½ with a cover.

"Letters in quantity, reports, folders, whatever we need in quantity I can do on this machine. I will say this in all honesty that when the time comes to purchase another mimeograph you can be sure Heyer Lettergraph will get my first consideration.

"I hope this letter will help you in telling others about the simplicity and economy of the lettergraph. I recommend it to all who use a mimeograph."

Sincerely yours,  
Rev. Oliver Weber

# Introducing the New and Revolutionary

## MISHEK'S THERMAL STENCIL

the amazing stencil  
that is cut in seconds  
with any  
Thermal Copying machine!

**Extraordinary** is the word for **MISHEK'S** new Thermal Duplicating Stencils! Now you can cut a perfect stencil with a copy machine. Just insert any letter, printed page, photo, form, or any other "faxable" original copy between the stencil and its backing sheet — run it through any thermal copying machine — and presto — in 10 seconds or less — the stencil is cut, ready to run on any duplicating machine! **MISHEK'S** Thermal Stencils can also be used as regular stencils.

### FAST! EASY! QUALITY STENCIL COPIES

- **MISHEK'S** Thermal Stencils produce 1 to 10,000 sharp, clean, permanent copies.
- Copies are run at between 120 and 160 copies per minute — faster than any other method.
- Copies cost from ½ cent to a fraction of a cent each, depending on the quantity — less than any other copying method.

### The Evolution of The Mimeograph Stencil!!

The Thermal Stencil has truly Revolutionized the Mimeograph Stencil Field.

**PREPARATION SPEED** — Unbelievably Fast.

**RESULTS** — If Directions at Right are Followed, SUPERB.

**ECONOMY** — For Quality involved, very, very Reasonable

## SO SIMPLE

We find that Thermal Stencils **DO NOT** give good copy work of typewritten Material . . . but are Excellent for printed materials, etc. However, after copy has been run thru Copier. One can type directly on stencil with good results.

**YOU CAN NOT DO THIS WITH ANY OTHER STENCIL.**

SO SIMPLE . . . Just Run thru the Thermal

Copier. Type in desired material if necessary . . . Place on Mimeograph Machine as with a Conventional Stencil . . . Run necessary copies being Assured of Clean, Sharp, Legible Copies.

## Orders are pouring in... for this new, fast-drying "DRI-RITE" INK (No. 2400 SE)

(FOR CLOSED AND OPEN DRUM MACHINES)

HERE'S AN ENTIRELY NEW CONCEPT in duplicating ink that dries so fast, sets so hard, it works like a charm on both bond and offset paper. No slip-sheeting necessary—something never before accomplished. It took five years to perfect.

Because of its unique quick-drying qualities, DRI-RITE is a great time and money saver. It produces more copies per pound of ink, per stencil and per hour of operation. No paper is wasted in preparation—even the first copies through a new run are usable.

The copies produced with Mishek DRI-RITE have all the quality of fine printing—legible, sharp, permanent. No washing of stencil needed—stencil is self-cleaning when used with this ink by simply placing it between papers or in a file folder.

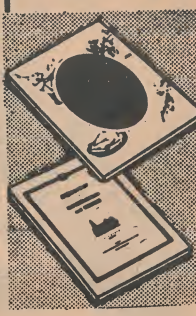

With DRI-RITE, the duplicator can be stopped in the middle of a run—then hours later, the run resumed without delay because DRI-RITE is ready to go.

# LET Am - San TOILET BOWL CLEANER Do It for YOU

## *Automatically!*

Think of it! — NEVER AGAIN will you have to face the most hated, most disgusting, most miserable bathroom chore of all — the cleaning and deodorizing of the toilet bowl! Am-San will do it for you effortlessly, silently, **AUTOMATICALLY!** With every flush of the toilet, Am-San not only *cleans* the toilet bowl, but *deodorizes* it too — all at the same time, without any muss or fuss of any kind. And Am-San is so economical, compared to old fashioned bowl care maintenance. Never again will you have to dig out the bowl brush or toilet mop, the cleansers or bowl cleaners to clean a toilet bowl, because from the minute you put Am-San to work for you, you'll never have to clean a toilet bowl again — ever!

### ELIMINATES MOST HATED BATHROOM CHORE FOREVER — AND IN JUST THE TIME IT TAKES TO FLUSH YOUR TOILET, TOO!

Am-San is a completely self-contained unit which requires no installation. You can do it yourself — in just *seconds!* All you do is take the lid off the flush tank of your toilet, hang Am-San inside of the tank, replace the lid — and Am-San goes to work immediately to keep your toilet bowl clean **AUTOMATICALLY.** Here's how Am-San works: When it hangs hidden inside the flush tank, it automatically releases a measured amount of an exclusive formula into the water. This chemical formula contains detergents to clean the bowl . . . silicones to prevent hard-water rings from forming . . . plus an efficient deodorant. When the toilet is flushed, the water containing this formula rushes into the bowl and begins to clean it. And every flush brings more formula to keep the toilet bowl clean and sanitary at all times. What's more, the water is tinted a cool, pleasant blue, to tell you that Am-San is on the job. "When the water's blue, Am-San is cleaning up for you!"

Am-San clips onto the inside of the water tank, and goes to work when the toilet is flushed. Bathroom air stays fresh all day long.

ADDRESS ANYTHING MAILABLE

Tags, labels, envelopes of any size—with a swift, one-hand motion. Does one hour's work in 12 minutes at amazingly low cost of 6c per 1,000 names! No inks, plates, ribbons!

The HEYER Portable Addresser loads like a camera, needs no experience to operate—and it's completely foolproof. Simplicity and versatility make it just as essential for churches, clubs, schools, stores, insurance agents and shippers as a pen or a typewriter.

" . . . If you need any letters of recommendation for this Addresser, I would be happy to supply them for ours does a wonderful job rapidly and at little cost. This beats a costlier machine in many ways."

Rev. P. M. E., Penna.

The Spirit Master Roll loads as simply as a roll of camera film and holds up to 250 addresses, each of which produces 100 or more clear impressions, regardless of long intervals between mailings. There is no limit to the size of mailing lists because any number of rolls may be used. Change instantly from one address to the next by one twist of a knurled knob (The easy-to-fill wick cartridge holds sufficient fluid for an entire run. Locks in operating position—snaps out easily for refilling). Fluid is applied and address printed with one swift continuous motion of the hand. Designed to assure accurate registration every time. Unlike stationary addressers, there is no size limit to the piece being printed.

Just fold it up, no adjustments to make, takes practically no room and it is ready for instant use. Only the Mishek Car Desk is so fool-proof, so positive.

## READ WHAT A POPULAR NATIONAL MAGAZINE SAYS ABOUT OUR CAR DESK

A simple metal frame that hooks over the back of the car seat allows easy installation of this car desk without tools. The 12-by-20-inch clipboard folds up against the seat back when not in use, and is detachable so you can take it along if you wish. The desk is strong enough to hold a portable typewriter. PS's Auto Editor uses one to keep fuel-economy records on trips and for taking notes during road tests. Undo the thumbscrews and you can shift the desk to the back seat; it makes a fine table for lunches or children's games on long trips. It sells for \$17.95 from Mishek's, R.R. 4, Waseca, Minn.

## UNDA-WUNDA TYPEWRITER PAD

### 1 Anchors typewriter firmly

Millions of microscopic suction cups in the surface make the typewriter immovable. This eliminates slippage, the greatest source of annoyance to typists.

### 2 Reduces noise

Acts as an acoustical base . . . absorbs noise.

### 3 Lessens fatigue

The superior cushioning of UNDA WUNDA limits vibration to a minimum . . . cuts down errors, increases speed and lessens fatigue.

### 4 Increases speed and accuracy

A pleasure to use. Type with the assurance that your typewriter will embed itself into your UNDA WUNDA PAD and will not move until you move it. Relieves tenseness, giving accuracy and speed to your typing.

# 'THE STAND WITH 1,000 USES'

## THE MISHEK LECTERN STAND

The Mishek lectern brings a satisfactory new solution to an old problem—where to get a strong, sturdy teachers stand at a price so low that every teacher can have one. This ingeniously constructed new stand is made of solid steel and assembled with bolts. With its tubular steel tripod legs and flanged steel top it will always remain strong and steady.

Although light in weight and easily moved it will adequately support several large, heavy books or papers on the 11" x 18" steel top.

Incorporating every desirable feature needed in a serviceable lectern. The Mishek lectern is still priced at only \$11.95 each.

A life-time of service at a substantial saving. Shpg. wt. each, 8 lbs.

## MISHEK DESK AND DOODLE PAD

At last. . . A desk pad designed for daily use every week of the year! Spaces provided for "Things to Remember" each day. Can also be used for daily assignments. Full year's calendar on each sheet. . . encircle important dates in advance. Plenty of space for jotting down information and the like. Plus plenty of room for doodling like we all seem to like to do. The pad is large (21 1/2 x 17 inches) overall. Made of high quality paper and attractively bound in brown leatherette for long good looking wear. Eliminates the usual blotter type that soon becomes "shop-worn". Order one for every teacher for you really save in Quantity Buying.

**SIMPLE TO PREPARE !!!**

**YOUR LAYOUT REPRODUCED EXACTLY AS YOU PREPARE IT.**

- Available for all popular mimeo machines.  
(Specify machine.)

**1 — 2 STEPS AND WE'LL DO THE REST !!**

1. Take a sheet of white 20 or 24 lb. paper. Lightly mark off actual area your mimeo machine will reproduce. For example — if you have an A. B. Dick machine allow at least ¾" all around.

2. Place your copy in exact location and glue down (rubber cement is best) smoothly with no wrinkles. Erase guide lines.

3. Sharp black copy reproduces best. On photos have high contrast (black on white) for best results.

**PASTE-UP LAYOUTS, too! \$2.25 PER STENCIL**

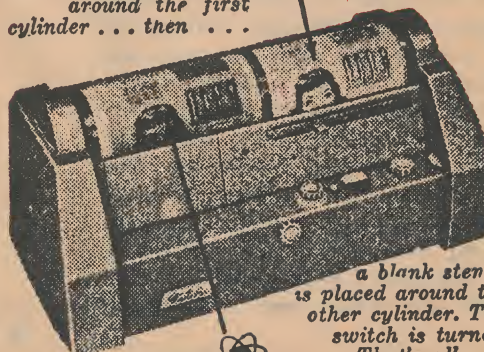

Anything printed, typed, or drawn, or combined as a "paste-up layout", can be swiftly translated into a stencil which will immediately reproduce amazingly faithful copies on your own duplicator.

Plus 25c  
for handling  
and postage

Remember, if you have an A. B. Dick or machine of this type to leave a ¾ inch margin on each side — (the same as you would if you were typing a stencil.)

No water . . . No glue

AN EXTRAORDINARY TAPE FOR

FREE dispenser with every dozen rolls (Filament Tape ONLY)

*Solves your packaging, bundling, and holding problems  
with miracle gripping power!*

**Super-strong!** And tape is not affected by temperature extremes or weather. Use it for bundling, holding, reinforcing, palletizing and unitizing. Rated tensile strength: over 300 lbs. per inch.

**CONSIDER ALL THESE APPLICATIONS—  
THEN ADD YOUR OWN!**

- Unitizes multi-box shipments. When there are several cartons to the same destination, strapping them together will save individual labeling and shipping costs.
- Prevents pilfering. Once sealed, tape is on to stay. The same tape cannot be used to reseal cartons or boxes, nor can it be removed without taking corrugated surface off box.
- Handles odd-ball shapes and sizes with ease. Things like pipe, lumber, metal sheets, cans, etc. Perfect in the warehouse!
- Palletizing is as easy as A-B-C. Never damages or cuts into palletized materials like metal strapping does.

SAVES WALLS

These chairs are "wall savers" because when opened, and rear feet are against wall, the backrest remains inches away from wall, thus protecting it from unsightly rub marks and bruises.

SIMPLIFIED GANGING

Chairs can be ganged together by four frame clamps for each three chairs: These are attached to front and rear legs as illustrated. A seat tie-bar for lifting three seats simultaneously is also available.

FOR SIZE, COMFORT, APPEARANCE AND SERVICE

Series 10 Chair leads them all

The new Series 10 Tubular steel folding chair combines time-proven construction features with thoroughly tested, advanced design developments to provide one of the largest and most comfortable seats in folding chairs ever offered.

Frame construction embodies electrically seam-welded tubing of heavy gauge, welded into one sturdy unit that will withstand many years of unusually hard usage. The large one-piece drawn and shaped seat and backrest are scientifically pitched and postured to assure maximum seating comfort for long seating intervals. In addition to its sturdiness, the series 10 is unusually safe in use—There are no sharp edges to pinch the occupant or tear clothing and the chair is so designed that it will not tip or collapse even if one were to stand on the very front or back edge of the seat.
